READER

Phosphor Plate Scanner

READER

The phosphor plates Scanner designed for capturing and storing digital images in less time and maximum simplicity.

Fast

Reader delivers highly precise digital images to any PC in less than 10 seconds.

Simple

No buttons, no remote controls. Install Reader directly to your computer through USB connection and start scanning. Three LED lights will indicate the status of the process.

The whole system is wonderfully compact, measuring just 17 x 19 x 30 cm.

Clever

Reader automatically recognizes the plate size. Just insert the plate and reader will start scanning.

Reader has an inner power supply adaptor to work from 100 to 220 V.

No extra cost

Reader enables getting clear HD images repeatedly using the same plate, with no film processing extra cost: No chemicals, film processor or darkroom needed.

Reader allows scanning intraoral plates from size 0 to size 3

Phosphor plates Advantages

Reusable
Cordless
Easy to position
Flexible and thin
No discomfort for patients

Reader & plates
Scan, erase and reuse
All in one easy step

The whole process takes few seconds. Insert the PSP into the slot and while a sharp and clear image appears on the screen, an auto-erase function cleans the plate for the next reading.

Getting HD long-lasting images has never been easier
